Professional Summary

Software Engineer with 2.5+ years of experience developing and maintaining production web applications using React.js, Next.js, TypeScript, Node.js, and Express.js. Experienced in building responsive interfaces, integrating REST APIs, implementing secure authentication, and working with AWS and Docker to support application deployment.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Redux Toolkit, SWR, TanStack Query, Tailwind CSS, React Bootstrap

Backend: Node.js, Express.js, REST APIs, JWT, Role-Based Access Control (RBAC), WebSockets

Databases: MongoDB, PostgreSQL, SQL

Cloud and Deployment: AWS EC2, AWS S3, Docker, CI/CD, Render, Vercel

Tools and Concepts: Git, GitHub, Postman, VS Code, MongoDB Compass, MVC, API Integration, Responsive Design, Performance Optimization

Professional Experience (2.5+ years)

Sensation Software Solutions Pvt. Ltd. Mohali, Punjab
Software Engineer *Jan 2024 – Present*

- Develop and maintain production web applications using React.js, Next.js, Node.js, Express.js, and MongoDB.
- Build responsive, reusable UI components and maintain consistent user experiences across devices.
- Integrate REST APIs using TanStack Query and SWR for efficient data fetching, caching, and synchronization.
- Implement JWT-based authentication and role-based access control to support secure application workflows.
- Work with AWS EC2, AWS S3, and Docker to support application deployment and environment configuration.
- Collaborate with cross-functional teams to troubleshoot production issues, improve application performance, and deliver features in an Agile environment.

Selected Projects

DialysisOnGo | *Next.js, TypeScript, PostgreSQL* | dialysisongo.com

- Collaborated with a cross-functional team to build a healthcare booking platform that helps patients arrange dialysis sessions while traveling.
- Developed responsive, multilingual interfaces and integrated functionality across patient, clinic, and admin modules, including CMS-managed content.

Sunny Homes Builders CRM (Australia) | *React.js, .NET, SQL* | crm.sunnyhomes.com.au

- Developed reusable UI components and responsive CRM interfaces to support lead tracking, property management, and sales workflows.
- Integrated APIs using SWR and implemented forms, validation, and dashboard features to improve data management and usability.

TraceVenue | *React.js, Node.js, Express.js, MongoDB* | tracevenue.com

- Developed features for a multi-role event planning platform connecting users, vendors, and service providers.
- Built and integrated REST APIs for bookings, quotations, users, and vendors, supporting quotation and contract workflows and real-time notifications.
- Worked with AWS deployment services to support application availability and delivery.

VitalWatch 365 (USA) | *React.js, .NET, SQL* | vitalwatch365.com

- Developed and maintained features for a digital healthcare platform focused on remote patient monitoring, personalized care plans, and virtual physical therapy.
- Integrated APIs and managed application state to support health data workflows, patient progress tracking, guided therapy sessions, and health-related notifications.

– Improved reusable UI components, application performance, and user experience to help users access health information and manage healthcare workflows.

Appy Saúde (Angola) | *React.js, .NET, SQL* | appysaude.co.ao

– Worked on a healthcare platform that enables users to explore pharmaceutical products, supplements, wellness items, and healthcare establishments in Angola.
– Supported product browsing, category navigation, and pharmacy, clinic, and hospital discovery workflows to help users find relevant healthcare products and services.
– Integrated APIs and maintained reusable UI components, application state management, and responsive layouts to improve usability across devices.

Education

Panjab University, SSG Regional Centre
Master of Computer Applications (MCA) — *Sep 2022 – Aug 2024*

SD College, Kurukshetra University
Bachelor of Science in Computer Science (B.Sc.) — *Jul 2019 – Aug 2022*
